## **ACKNOWLEDGMENTS**

***Crime In Washington 2011*** was compiled from data submitted to the Washington Uniform Crime Reporting Program and National Incident-Based Reporting System of the Washington Association of Sheriffs and Police Chiefs by Washington State law enforcement agencies during 2011. Coverage is 99.9% of the state population.

This report would not be possible without the voluntary cooperation of the statewide law enforcement community and their commitment to submit timely, complete, and accurate crime statistics.

## Introduction

This is the thirty-second annual publication of the Washington Uniform Crime Reporting (UCR) Program report of criminal offenses, arrests, law enforcement officers killed or assaulted, and full-time law enforcement employees. Funding for the Washington UCR Program is provided through contract with the Washington State Criminal Justice Training Commission (CJTC) and administration of the program is the responsibility of the Washington Association of Sheriffs and Police Chiefs (WASPC) Criminal Justice Information Support (CJIS) Department. Washington's UCR Program is unique in that it is sponsored, administered, and supported by an organization of contributing agency administrators rather than a bureau or department of state government.

## Background

Although the collection of nationwide crime information dates back to the 1890's, no ongoing program was initiated until the International Association of Chiefs of Police (IACP) established a committee on uniform crime records in 1917. The committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930 when the FBI received a congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the UCR Program in an advisory capacity and has been joined in this responsibility by the National Sheriffs Association.

The Washington UCR Program was activated in October 1979 and began the collection of monthly reports from contributing agencies in January 1980. Today, the Washington UCR Program offers on-line data input processing and provides various reports necessary for statistical purposes in the criminal justice system. Data for ***Crime in Washington 2011*** were compiled from monthly Summary UCR and National Incident-Based Reporting System (NIBRS) submissions by individual law enforcement agencies throughout the State of Washington.

## NIBRS: Replacing Summary Crime Reporting

In December 2006, Washington State was certified by the FBI to officially collect and submit NIBRS data. In January 2008, based on a 2007 advisory committee recommendation, the WASPC Executive Board made the decision and set the goal date for Washington State law enforcement agencies to convert from Summary UCR to NIBRS by January 1, 2012. Due to a number of agencies involved in records management system (RMS) upgrades and replacements during 2011, the Executive Board agreed to grant extensions to agencies that could not meet January 2012 deadline. Depending on the degree of readiness, those agencies have either a six (6) or twelve (12) month extension until the end of 2012.

As mentioned, the data included in this report are comprised of both Summary UCR and NIBRS data. Because not all agencies in Washington are converted to the NIBRS method of submission, the statewide data summaries for comparison between 2010 and 2011 are displayed in Summary UCR. However, for each agency that submitted NIBRS for the twelve (12) months of 2011, this report provides a data display page with their NIBRS statistics as well.

## **Crime Index**

The crime index is a basic measure of crime which can be used for comparing the extent of crime among cities, counties, and states of similar size. The index is simply the total number of certain offenses that occur in a given area in a given calendar period (usually quarterly and annually). Although the Washington UCR Program collects more types of crimes using NIBRS, for the purpose of consistent and uniform comparison, the offenses measured in the crime index are Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny-Theft, Motor Vehicle Theft, and Arson.

It should be noted that using only certain offenses to measure the crime index in a city or county may not accurately depict actual incidence of crime. There are unreported crimes, varying severity of offenses not taken into account, and high incidence of crime involving non-index offenses such as gambling and narcotics. The crime index is simply a measure for comparison in time, size, and location.

## **Crime Rate**

The crime rate is based on the index, but adjusts the index for variances in population by indicating the number of index offenses for each 1,000 persons (other base population increments may be used such as the number of index offenses per 100,000). This means that comparisons may be made among several areas with different populations or within one area with different populations over a period of time, without the information being biased by population differences. For most general comparisons, the crime rate is probably the most accurate to use.

To calculate the crime rate, first divide the population of the area by 1,000, and divide the crime index by that answer. For example, if a city has a population of 273,000 and a crime index of 21,257 the calculations would be:

1.  $273,000 \text{ divided by } 1,000 = 273.0$
2.  $21,257 \text{ divided by } 273.0 = 77.86$

Thus, although the city's crime index is 21,257, its crime rate (the number of crimes for each 1,000 people) is 77.86.

## **Classification of Offenses**

All offenses are classified on the basis of law enforcement investigation in accordance with national UCR offense definitions and are not necessarily identical to the Revised Code of Washington (RCW) definitions. Because UCR identifies and tallies a police contact, offense classifications are not based on filings of the prosecutor, court, medical examiner, jury, or other judicial or subsequent findings.

### **Summary Uniform Crime Reporting (UCR)**

Summary UCR divides offenses into two (2) major classifications designated as Part I and Part II offenses and different information is collected for each classification. Part I offenses include (1) violent crimes: Murder and Non-Negligent Manslaughter, Forcible Rape, Robbery, and Aggravated Assault; and (2) property crimes: Burglary, Larceny-Theft, Motor Vehicle Theft, and, since January 1979, Arson. Part I offenses are used to calculate

the crime index and crime rate. All other offenses are classified under Part II offenses.

### **National Incident-Based Reporting System (NIBRS)**

NIBRS divides offenses into two (2) categories of offenses designated as Group A - Incident and Group B - Arrest. The Group A offenses collected in the NIBRS program are: Arson; Assault; Bribery; Burglary; Counterfeiting/Forgery; Destruction/Damage/Vandalism of Property; Drug/Narcotic Offenses; Embezzlement; Extortion/Blackmail; Fraud; Gambling Offenses; Homicide; Kidnapping/Abduction; Larceny/Theft; Motor Vehicle Theft; Pornography/Obscene Material Offenses; Prostitution Offenses; Robbery; Forcible Sex Offenses; Non-Forcible Sex Offenses; Stolen Property Offenses; Violation of No Contact/Protection Orders, and; Weapon Law Violations. Group A offenses include statistical data on the incident, all offenses committed, property involved, weapons involved, victim and offender demographics, arrest information, and clearance status.

Group B offenses, for which only arrest data are collected, include: Bad Checks; Curfew/Vagrancy Violations; Disorderly Conduct; Driving Under the Influence; Drunkenness; Non-Violent Family Offenses; Liquor Law Violations; Peeping Tom; Runaway; Trespass of Real Property; and All Other Offenses (non-traffic).

### **Counting Offenses**

#### **Summary Uniform Crime Reporting (UCR)**

The number of offenses is counted only for Part I crimes and Simple Assault. The method of counting varies with the type of crime committed - the number of offenders does not determine the number of offenses. For Murder, Non-Negligent Manslaughter, Forcible Rape, and Aggravated Assault, one offense is counted for *each victim*, regardless of the number of offenders involved. For Robbery and Larceny, one offense is counted for *each distinct operation* that is separate in time and place. The number of victims in any one operation does not determine the number of offenses. For example, if twenty (20) people are robbed in a bar at the same time, only one (1) offense has occurred. However, if that robber leaves the bar and holds up a passerby, a second offense has occurred. For Burglary, one offense is counted for each structure that is illegally entered. However, when the structure is an apartment house, business, or office building in which units are leased for a period of time, one offense is counted for each unit burglarized. For Motor Vehicle Theft, one offense is counted for each vehicle stolen.

**NOTE:** Attempts to commit any of the crime index offenses are counted as actual offenses, except Attempt to Murder or Assault to Kill are counted as Aggravated Assault.

In Summary UCR, for multiple offenses that occur in one crime incident, only the most serious offense is counted. This is known as the **hierarchy rule**. Part I crimes are ranked according to seriousness and appear in order from most serious to least serious crimes. For example: a robber takes a man's wallet and then beats him causing serious injury. Both a Robbery and an Aggravated Assault have occurred, but because Robbery is considered by FBI UCR definition to be more serious, only the Robbery is counted.

**NOTE:**

1. Arson is an exception to the above rule and is counted separately from other offenses.
2. The number of offenses is not reported for Part II offenses.

## **National Incident-Based Reporting System (NIBRS)**

The **hierarchy rule** does not exist in NIBRS; therefore, all crimes committed within the same incident by the same person or group of persons, without a significant time or space interval separating them, would be reported. For example, if a Rape case involves crimes of Motor Vehicle Theft and Kidnapping, all crimes would be reported. However, if a crime is an inherent part of another crime, only one crime may be appropriately reported. For example, Larceny is inherent in the crime of Burglary and would not be reported as a separate crime in the incident; however, if the suspect, upon leaving the residence, takes items outside the structure, Larceny would be reported as a second crime. As another example, Assault is an element in Robbery and would not be reported as a crime separately from the Robbery; however, if the suspect forces the victim to engage in a sexual act, both a Robbery and Forcible Sex Offense would be reported because a forced sexual act is not an element of Robbery.

## **Arrests**

### **Summary Uniform Crime Reporting (UCR)**

Arrest information is collected for all Summary Part I and Part II offenses according to the age, sex, and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because the arrest-totals count all offenders arrested for each offense, and clearance-totals count only the offense for which an arrest or arrests have occurred.

### **National Incident-Based Reporting System (NIBRS)**

In NIBRS, the law enforcement agencies collect detailed data elements related to incidents and arrests. The Group A - Incident Reports are comprised of segments (administrative, offense, property, victim, offender, and arrestee) and within the segments are multiple data elements identifying the incident, such as originating agency identifier (ORI), incident number, date, location, offense, demographics, and other relevant segment categories. Therefore, unlike Summary UCR, NIBRS arrests and clearances can be submitted as updates to the Group A - Incidents reported.

## **Clearances**

### **Summary Uniform Crime Reporting (UCR)**

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved. Offenses may also be cleared by exceptional means when the offender commits suicide, makes a dying declaration, confesses while in custody or serving time for another crime, is prosecuted in another jurisdiction for the same offense, is a juvenile who is handled by notifying the parents, or when the victim refuses to prosecute or another jurisdiction refuses to extradite the offender, etc.

Clearances are counted as "adult" and "juvenile". A "juvenile" clearance is counted only when juveniles are exclusively involved in the clearance of an offense. If the arrest of both adults and juveniles result in a clearance, it is counted as an "adult" clearance. **NOTE:** Not all crimes are cleared within the calendar year in which the offense occurs.

## **National Incident-Based Reporting System (NIBRS)**

In NIBRS, clearances are on the incident level rather than the offense level. If one offense within an incident is cleared, all offenses in that incident are cleared. Likewise, the arrest of one offender in an offender in an incident will clear it even if other offenders have not been arrested yet. Clearances by arrest are automatically created when an Arrest Segment is submitted with a Group A - Incident. An incident cannot be cleared exceptionally if there has been an arrest.

Clearances by Exceptional Means allow an agency to clear an incident without an arrest. The criteria include: 1) the identity of at least one offender must be known; 2) sufficient probable cause must have been developed to support the arrest and prosecution of the offender; 3) the offender's exact location must be known, and; 4) there must be a reason, outside of law enforcement's control, which prevents the arrest. For example, the death of the offender or the offender is in the custody of another jurisdiction.

## **Objectives of Washington UCR**

The primary objective of the ***Crime in Washington 2011*** is to implement and administer a uniform system of collecting crime and arrest statistical data from contributing law enforcement agencies in the State of Washington and present the information in complete, accurate, and timely method for the contributors and users of the data. Whether it's a citizen interested in the probability of crime in a neighborhood, a forecaster tracking trends for budget recommendations, or a criminal justice practitioner scheduling personnel deployment in the interest of public safety, data-driven evidence is the foundation for each decision-maker.

Individuals using the tabulations in the ***Crime in Washington 2011*** are cautioned against drawing conclusions by making direct comparisons between cities and/or counties due to the existence of numerous factors which affect the amount and type of crime from place to place. It's important to remember crime is a social problem and, therefore, a concern of the entire community. The efforts of law enforcement are limited to factors within its control.

When compiled and evaluated, the data available in the ***Crime in Washington 2011*** can be utilized:

1. To identify the number of crimes reported by contributing agencies;
2. To identify the geographical distribution of reported offenses;
3. To determine whether or not reported crimes have increased or decreased;
4. To determine whether or not reported crimes have increased or decreased by population groups;
5. To determine the number of clearances and the clearance rate for reported offenses;
6. To determine the reported number of arrests by offense, age, sex, and race;
7. To determine the number of law enforcement officers assaulted and killed;
8. To determine the number of commissioned (sworn) and civilian law enforcement employees by gender;
9. To determine the rate per population group of commissioned (sworn) and civilian law enforcement employees.

Although, generally, crime reporting is voluntary, there are a few Washington State statutes requiring submission to the WASPC CJIS Department, such as institutions of higher learning pursuant to RCW 28B.10.569, domestic

violence crime reporting pursuant to RCW 10.99.030, and malicious harassment crime reporting pursuant to RCW 36.28A.030. In addition, there are state funding opportunities and programs tied to crime statistic reporting. For example, RCW 82.14.310 for counties and RCW 82.14.320 for municipalities define the criminal justice assistance accounts and the use of crime statistics for calculation in funding. Some grant opportunities from federal agencies depend on crime statistics as well. For example, the UCR submission requirement is outlined by the federal Bureau of Justice Assistance (BJA) for the Byrne Justice Assistance Grant (JAG) Program: [www.ojp.usdoj.gov/BJA/grant/JAGFAQ.pdf](http://www.ojp.usdoj.gov/BJA/grant/JAGFAQ.pdf). Finally, timely UCR submission to the WASPC CJIS Department is a requirement for the agency accreditation program - Chapter 5, Standard 5.1.12.

### **Domestic Violence**

Domestic violence offenses are collected as mandated by the Washington State Legislature. These are not separate offenses from those collected in Summary UCR but because of the nature of the relationship of those involved, these offenses are further categorized for analysis. The offenses collected are limited to: homicide, forcible rape, robbery, assault, burglary, larceny, motor vehicle theft, arson, and violation of protection/no-contact orders.

### **Hate Crime (Malicious Harassment)**

Like domestic violence offenses, hate crimes are not distinct, separate offenses. They are traditional offenses that are motivated in whole, or in part, by the offender's bias. The motivations are specific and include biases against race, color, religion, ancestry, national origin, gender, sexual orientation, or mental, physical, or sensory handicap. The offenses collected are limited to: murder, forcible rape, robbery, assault, burglary, larceny, motor vehicle theft, arson, intimidation, and vandalism. Data collected in the hate crime program are forwarded to the FBI.

## Law Enforcement Code Of Ethics

**As a Law Enforcement Officer**, my fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

**I will** keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

**I will** never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities, or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

**I recognize** the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other police officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

**I know** that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

**I will** constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...law enforcement.

---

The following section provides individual law enforcement agencies' offense counts for violent and property offenses. Also included are statewide totals and information on stolen property by type and value. These numbers are derived from monthly Summary Uniform Crime Reporting and National Incident-Based Reporting System submissions by Washington State law enforcement agencies.

Populations are based on the Washington State Office of Financial Management "Official April 1, 2011, Population Estimates", except for university police, port police, tribal police, and non-reporting agencies which show zero populations.

The population data reflect permanent residents only. It does not include transient and visitor populations or residents of the military bases and state or federal hospitals.

Individuals using these tabulations are cautioned against drawing conclusions by making direct comparisons between cities and/or counties due to the existence of numerous factors which affect the amount and type of crime from place to place. It is important to remember that crime is a social problem and, therefore, a concern of the entire community. The efforts of law enforcement are limited to factors within its control.

# Statewide Summary Comparison by Agency, County, and State Rate per 1,000 Population 2010 - 2011

The Crime Index is a basic measure of crime used for comparing the extent of crime among cities, counties, and states of similar size. The Crime Total is the total number of violent, property, and arson crimes in the calendar year. The Total Crime Rate is the number of index offenses for each 1,000 persons in population.

CAUTION: The populations of non-reporting agencies are shown as zero.

Reporting agencies are shown as zero.			Crime Index Offenses				Violent Crime				Property Crime							Motor Vehicle Theft

**Statewide Summary Comparison  
by Agency, County, and State  
Rate per 1,000 Population  
2010 - 2011**

The Crime Index is a basic measure of crime used for comparing the extent of crime among cities, counties, and states of similar size. The Crime Total is the total number of violent, property, and arson crimes in the calendar year. The Total Crime Rate is the number of index offenses for each 1,000 persons in population.

CAUTION: The populations of non-reporting agencies are shown as zero.

# Statewide Summary Comparison by Agency, County, and State Rate per 1,000 Population 2010 - 2011

The Crime Index is a basic measure of crime used for comparing the extent of crime among cities, counties, and states of similar size. The Crime Total is the total number of violent, property, and arson crimes in the calendar year. The Total Crime Rate is the number of index offenses for each 1,000 persons in population.

CAUTION: The populations of non-reporting agencies are shown as zero.

# Statewide Summary Comparison by Agency, County, and State Rate per 1,000 Population 2010 - 2011

The Crime Index is a basic measure of crime used for comparing the extent of crime among cities, counties, and states of similar size. The Crime Total is the total number of violent, property, and arson crimes in the calendar year. The Total Crime Rate is the number of index offenses for each 1,000 persons in population.

CAUTION: The populations of non-reporting agencies are shown as zero.

# Arrests

---

Data in this section represent the number of persons arrested, not the number of charges filed. The following tables depict counts for non-traffic offenses in which an individual was taken into custody, cited, or summoned to appear in court. In some instances, an arrest may be counted when a juvenile is taken into custody but released without being charged. These numbers are derived from monthly Summary Uniform Crime Reporting and National Incident-Based Reporting System submissions by Washington State law enforcement agencies.

# Domestic Violence

---

Collection of domestic violence-related violent and property offenses is mandated by State of Washington statute, RCW 10.99.030. Domestic violence is defined by relationship of victim to offender or by shared living space. These numbers are derived from monthly domestic violence forms or National Incident-Based Reporting System submissions by Washington State law enforcement agencies.

# Hate Crime

---

Hate crimes are not separate, distinct offenses, but rather traditional crimes motivated by the offender's bias. The data are derived from quarterly hate crime report or monthly National Incident-Based Reporting System submissions by Washington State law enforcement agencies.

## Washington State Hate Crime Trend 2002 - 2011

# Hate Bias

## Introduction

---

In response to the passage of the Hate Crime Statistics Act of 1990, the Washington State Legislature directed every law enforcement agency within Washington to report hate bias offenses to the Washington Association of Sheriffs and Police Chiefs.

FBI reporting guidelines and forms are used and the data is forwarded to the FBI for inclusion in the national statistics. In keeping with the Washington State Malicious Harassment Act, two additional motivational categories were added for our state: anti-disability (physical, mental, sensory), and anti-gender (male and female). Hate crime offenses with an anti-handicap or anti-gender motivation are not forwarded to the FBI.

Determining the prevalence of hate crime is an important responsibility for the entire law enforcement community. Tremendous interest has been shown by the general public, law enforcement agencies, legislative bodies, human interest groups, and others relative to the collection of hate crime data.

The commitment of Washington State law enforcement is the key to the success of Washington State's hate crime data collection program. Without law enforcement's active participation in the collection of these statistics, this report would not be possible.

## Hate Crime Definition and Methodology

---

The Washington State Hate Crime Malicious Harassment Act defines hate crime as criminal offenses that manifest evidence motivated by the offender's bias against the victim's race, religion, ethnicity, sexual orientation, disability or gender.

Because of the difficulty of ascertaining the offender's subjective motivation, bias is reported when the law enforcement investigation reveals sufficient objective facts to lead a reasonable person to conclude that the offender's actions were motivated, in whole or in part, by bias.

Hate crimes are not separate, distinct offenses, but rather traditional crimes motivated by the offender's bias. The eleven offenses collected in the Hate Crime reporting program are the eight Index offenses (murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson) plus simple assault, intimidation, and vandalism. Words alone do not constitute an offense unless the context or circumstances surrounding the words indicate the words are a threat. Threatening words do not constitute an offense if it is apparent to the victim that the person does not have the ability to carry out the threat.

A hate crime incident can involve more than one offense, victim, and/or offender. For counting purposes, one offense is counted for each victim of a crime against a person, and one offense is counted for each distinct incident of a crime against property, regardless of the numbers of victims.

Following a calendar quarter, law enforcement agencies submit a Hate Crime Incident Report for each bias-motivated incident and a summary report for the quarter. If there were no hate crime incidents during a quarter, the agency still reports the summary that will show there were no hate crime incidents.

## 2011 HATE BIAS CRIME

### Volume

During 2011, 207 bias motivated criminal incidents were reported by 265 law enforcement agencies in 39 counties. The 207 incidents involved 249 separate offenses, 266 victims, and 139 known offenders. It is important to remember that there can be more than one offense within a single incident.

	2010	2011	% of Change
Reported Incidents	213	207	- 3%
Reported Victims	295	266	- 10%
Reported Known Offenders	139	139	0%
Reported Offenses	274	249	- 9%

### Offenses

Crimes against persons comprised 62% of the 249 offenses reported during 2011. Vandalism was the single most frequently-reported hate crime among all offenses measured, accounting for 33% of the total. Following were intimidation, 31%; simple assault, 20%; aggravated assault, 11%; murder, robbery, larceny, burglary, and motor vehicle theft totaling 5%. There were no reported offenses of rape or arson related to hate crime in 2010.

# **Law Enforcement Officers Killed or Assaulted**

---

Information in this section is derived from monthly Summary Uniform Crime Reporting or National Incident-Based Reporting System submissions by Washington State law enforcement agencies.

## **Law Enforcement Officers Killed or Assaulted**

Law enforcement officers may become victims of assault as a consequence of their occupations. The Uniform Crime Reporting Program addresses all assaults on officers which involve more than verbal abuse or minor resistance to an arrest.

In 2011, no law enforcement officer was killed in the line of duty in the State of Washington.

In 2011, contributing agencies reported 1,049 officer assaults with 24.4% of the total assaults resulting in personal injury to the officer.

The type of activity in which an officer was most likely to be assaulted was responding to disturbance calls, which accounted for 35.0% of the total officers assaulted. Other activities of significance were: attempting other arrests, 16.8% of the total; investigating suspicious persons or circumstances, 11.1% of the total; handling or transporting prisoners, 9.2% of the total, and; traffic pursuits and stops, 9.1% of the total. During 2011, police assaults were cleared (by arrest or exceptional means) 86.6% of the time.

Hands, fists, and feet were the primary weapons used in 72.9% of the total assaults, followed by other dangerous weapons (not a knife or firearm), 20.8%; firearm, 4.6%; and knife or cutting instrument, 1.7%. The type of assignment in which most assaults occurred was a one-officer vehicle assisted, resulting in 515 assaults or 49.1%, followed by one-officer vehicle alone, with 264 assaults or 25.2%. During a 24-hour period using 8-hour shifts, 8 p.m. to 4 a.m. reflected the most assaults, 533 assaults, or 50.8% of the total. The fewest assaults occurred between 4 a.m. and 12 p.m., 172 or 16.4%.

These statistics indicate that officers face the highest risk of assault when responding to disturbance calls between the hours of 8 p.m. and 4 a.m., in a one-officer vehicle assisted. The offender is most likely to use hands, fists, and feet as a weapon.

# Washington Uniform Crime Reporting Program

## General Glossary

**ACTUAL OFFENSE:**

An offense which law enforcement personnel confirm to have happened.

**ADULT:**

A person who is 18 years of age or older at the time of committing a crime.

**ALL OTHER OFFENSES:**

State and local offenses not otherwise specified.

**ARRESTS:**

The act of taking a person into custody by authority of law to charge him or her with a criminal offense. An adult arrest should be reported when a law enforcement officer detains an individual with the express intent of seeking charges against this person for a specific criminal offense(s) and a record is made of the detention.

**ARSON:**

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

**ASSAULT, AGGRAVATED:**

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. All assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified as aggravated.

**ASSAULT, SIMPLE:**

An unlawful attack or attempted attack by one person upon another in which no weapon was used and which did not result in serious or aggravated injury to the victim.

**BURGLARY:**

The unlawful entry of a structure to commit a felony or a theft.

**CLEARANCE:**

The solving of an offense by arrest, or in some circumstances, by exceptional means.

**CLEARANCE RATE:**

Percentage of the total crimes cleared compared to the number reported.

Example:

a. Number of robbery clearances, 38

b. Number of total robberies, 72

Divide: 38 by 72 = .528

Multiply: .528 X 100 = 52.8

c. 52.8% clearance rate for robberies.

**CRIMES AGAINST PERSONS:**

Sub classification of the Crime Index, which encompasses murder and non-negligent manslaughter, rape, and aggravated assault.

**CRIMES AGAINST PROPERTY:**

Sub classification of the Crime Index, which encompasses robbery, burglary, larceny (theft), motor vehicle theft and arson.

**CRIME INDEX:**

Classification of eight offenses selected for their seriousness, frequency of occurrence, and likelihood of being reported. Includes murder and non-negligent manslaughter, rape, robbery, aggravated assault, burglary, larceny (theft), motor vehicle theft and arson.

**CURFEW AND LOITERING LAWS - PERSONS UNDER 18:**

Transgressions of curfew or loitering ordinances pertaining to juveniles.

**DISORDERLY CONDUCT:**

Committing or attempting to commit a breach of the peace. Includes affray, unlawful assembly, disturbing the peace, disturbing meetings, disorderly conduct in state institutions, blasphemy, profanity, and obscene language, desecrating the flag, and refusing to assist an officer.

**DOMESTIC VIOLENCE:**

Crimes committed by one family or household member against another; "family or household members" means spouses, former spouses, persons who have a child in common regardless of whether they have been married or have lived together at any time, adult persons related by blood or marriage, adult persons who are presently residing together or who have resided together in the past, persons sixteen years of age or older who are presently residing together or who have resided together in the past and who have or have had a dating relationship, persons sixteen years of age or older with whom a person sixteen years of age or older has or has had a dating relationship, and persons who have a biological or legal parent-child relationship, including stepparents and stepchildren and grandparents and grandchildren.

**DRIVING UNDER THE INFLUENCE:**

The driving or operating of any vehicle or common carrier while drunk or under the influence of liquor or narcotics. This includes operating a motor vehicle, engine, train, streetcar, boat, etc., while intoxicated.

**DRUG ABUSE VIOLATION:**

Transgression of state and local laws relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

**DRUNKENNESS:**
